PRODUCT DESCRIPTION

Basic Use: TR-7 Tar & Mastic Remover clings and dissolves rubber type mastics, floor tile adhesives, as well as, tar, paint and motor oil stains from masonry and concrete surfaces.

TR-7 Tar & Mastic Remover contains water rinseable detergents for easy rinsing. (Will not discolor masonry or concrete surfaces.)

Limitations: use only with adequate ventilation.

TR-7 Tar & Mastic Remover is more effective when used on exterior surfaces where hot water rinse can be used freely. The use of high pressure water equipment is recommended for rinsing highly porous masonry. Equipment that will develop 400 to 800 PSI with a water flow of 4-6 gallons per minute offers the highest degree of efficiency.

Precautions: read the entire Material Safety Data Sheet and product label for a more thorough evaluation of hazards. Fully protect all adjacent

surfaces including vegetation and aluminum from coming in direct contact with TR-7. Beware of wind drift onto auto and pedestrian traffic.

TECHNICAL DATA

Color/Form: amber semi paste.

Coverage: approximately 50 sq. ft. per gallon depending on the thickness of the tar or mastic to be removed.

Packaging: one, five and fifty-five gallon containers.

INSTALLATION

Preparatory Work: to prepare surface, scrape off any heavy accumulation possible either mechanically or by hand. TR-7 is more effective when used on exterior surfaces where water can be used freely.

A test area should be completely processed before beginning overall project to determine precise procedures necessary for most effective removal of tar and mastic and to ensure product is compatible with surface being cleaned.

User shall determine the suitability of the product for its intended use and assumes all risk and liability whatsoever in connection therewith.

Application:

1. Using a natural bristled brush, roller or non-plastic sprayer apply a thick heavy coat of full-strength TR-7 to a dry surface. Application of TR-7 with high pressure equipment is **not recommended**.

2. While waiting for TR-7 to penetrate (5-10 minutes), reapply more on any dry spots. (TR-7 continues to work as long as product is wet). Let TR-7 work until tar or mastic is completely loosened.

3. Use a wide blade putty knife and scrape off dissolved finish.

4. Re-apply a second coat of TR-7 over the same area. Let set until it penetrates then remove dissolved finish with putty knife.

5. Rinse from the bottom up when conditions permit. For best results rinse surface with a pressure washer (hot water preferable). Rinse dissolved residue completely from surface. Failure to do so may result in staining.

AVAILABILITY

Available through a network of distributors, representatives and dealers established in principal cities across the United States, Canada, and Japan.

Notice: the information and recommendations made herein are based on ABRP Inc. research and the research of others, and are believed to be accurate. However, no guarantee of their accuracy is made because ABRP Inc. cannot anticipate every possible application of ABRP Inc. products, nor anticipate every variation encountered in project surfaces, job conditions, and methods used. For this reason, purchasers shall make their own tests to determine the suitability of such products for a particular purpose.

Purchasers assume all risk of use, application and handling of products. Statements concerning the possible use of **ABRP Inc.** products are not intended as recommendation to use **ABRP Inc.** products in the infringement of any patent.

LIMITED WARRANTY

This warranty is valid for one year from the date of purchase. The purchaser of this product shall be entitled to the following, if the product herein is shown to be defective: **ABRP, Inc.**, at its option, will either replace the product or refund the purchase price. Contact **ABRP, Inc.**, to make claim under this warranty. The purchaser must have proof of purchase from label and original sales receipt. Proper surface preparation is essential to the applicability of this warranty. Read and follow label directions.

ABRP, Inc., shall not be liable for incidental, consequential or indirect damage arising from the use of this product or the cost of labor involved

in its application.

Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.

No other warranties are made, expressed or implied, including without limitation warranties as to MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

This limited warranty may not be modified or extended by manufacturer's representatives, distributors or dealers of **ABRP, Inc.**, products.

Some states do not allow the exclusion or limitation of incidental or consequential damages so the above limitation or exclusion may not apply to the purchaser. This warranty gives the purchaser specific legal rights, as well as other rights which may vary from state to state.

TECHNICAL SERVICES

ABRP, Inc., employs a manufacturer's direct personal assistance staff and field technical representatives to answer questions for architects, building owners and contractors.
