

X-100 NATURAL SEAL®

Wood Restoration and
Preservation at its Finest.

American Building Restoration

Restoring the Old, Preserving the New.

EST. 1970

Higher Performance

Two gallons of protection in every gallon!

ABR® Products, Inc. is proud to present X-100 Natural Seal®, a complete restoration and preservation system created to restore, enhance, maintain, and protect wood.

Since 1970 ABRP, Inc., has developed, manufactured and supported a variety of restoration and preservation products.

This system was developed specifically for wood restoration and preservation. The line has been comprehensively researched and designed from a scientific perspective by research chemists in the field of forest products technology.

The X-100 Natural Seal® products will ensure the best appearance, the deepest penetration, and the longest lasting results for your interior and exterior wood surfaces.

STEP 1

Restoration (Coating & Finish Removal)

ABR® Super Bio Strip™ Gel is a biodegradable, water soluble, multi purpose stripper and cleaner. Super Bio Strip™ Gel is formulated to remove a wide variety of paints, organic finishes, stains and varnishes from both exterior and interior surfaces without neutralizing. Product No.3600

STEP 2

Preparation (Cleaning)

X-180 Weathered Wood Restorer™ is a cleaning formula developed to counteract the weathering process by eliminating years of fungus, discoloration and general weathering from cedar, redwood, and other types of wooden siding, logs, decks and shake roofs, restoring the surfaces to the appearance of new lumber. Product No.3300

ABR® Deck and Siding Wash™ is a versatile one step concentrated cleaner that is designed to remove airborne contaminants that attach themselves to wood and logs. ABR® Deck and Siding Wash™ removes oxidation without brushing while maintaining the integrity of the finish. Product No.3400

STEP 3

Preservation

Pre-Stain Finish

X-100 Natural Seal® Pre-Finish extends woods natural appearance with deep penetrating wood stabilizing ingredients. These ingredients enable X-100 Natural Seal® Pre-Finish to ultimately extending the life of the finish. Product No.1900

Wood Preservative

X-100 Natural Seal® Wood Preservative formula is a wood preservative consisting of essential wood protecting ingredients blended in a paraffinic oil and designed to penetrate wood. This unique oil-borne system is E.P.A. registered, V.O.C. compliant, and is non-sensitive to Ultra-violet (U.V.) rays. Product No.1300

Deck & Siding Stain

X-100 Natural Seal® Deck & Siding Stain provides protection against the intrusion of water on new, dense and old, seasoned pressure treated, cedar, redwood and other hardwood decking lumber. X-100 Natural Seal® Deck & Siding Stain is available in colors derived from natural oxide pigments to accentuate the natural color of wood. Product No.1500

Durable, Deep Penetrating Protection for Interior and Exterior Wood Finishes.

Roof Grade

X-100 Natural Seal® Roof Grade is designed with four U.V. inhibiting ingredients, including reflective metals, to protect wood roofs from degradation and provide a resilient barrier that protects against damage caused by exposure to harsh climate conditions such as wind, moisture erosion, and U.V. radiation. Product No.1600

Interior Finish

X-100 Natural Seal® Interior Finish is formulated with essential wood protecting ingredients blended in a deep penetrating oil to provide a rich warm glow and natural wood finish. This non-film forming, breathable finish will provide years of color fastness to your interior log/wood home investment. Product No.1400

Semi-Solid Stain

X-100 Natural Seal® Semi-Solid Color Stain is designed for use on vertical (siding) surfaces and cuts of cedar, redwood, pine, plywood, T1-11, cypress and fir. Additionally, it has been formulated for use on smooth and rough exterior wood, including sidewalls, shingles, shakes and trim. Product No.1200

Products for restoring the natural appearance of wood surfaces.
